

Hospital Readout

Starting February 2003, the **Ellenville Regional Hospital** began conducting a urology clinic at the hospital. Services are provided by Dr. Donald Krawitt, a Board Certified Urologist, who has maintained a private practice in Rhinebeck, New York for 21 years and, prior to that, was on staff at Mt. Sinai Hospital in Manhattan.

Dr. Krawitt attended the University of Geneva Medical School in Switzerland and completed his Urology residency at Mt. Sinai Hospital in New York City. He is an Associate Clinical Professor of Urology at New York Medical College. Dr. Krawitt is the author of many published articles on ultrasonic aspiration of prostate and bladder cancer, fiber optic detection of kidney stones and general urology.

Coordinating health care services with the patient's primary care physician, Dr. Krawitt will provide screenings and treatment for urological disorders, prostate cancer and complications involving the urinary tract system and incontinence.

"I have had the pleasure of maintaining a professional relationship with Dr. Krawitt for many years," says Michael Mazzarella, President and CEO of the hospital. "He is well-respected among his peers and I am confident he will bring to the hospital the quality of care and compassion the community expects and deserves."

For more information, call the hospital at **647-6400, Ext. 292**.

Ellenville Regional Hospital also welcomes Dr. John B. Flynn, Jr., Orthopedic Surgeon, to its medical staff. Dr. Flynn graduated from the Universidad Autonoma de Guadalajara medical school in Mexico and completed his orthopedic surgical residency at Monmouth Medical Center in New Jersey and Elizabethtown Hospital for Children and Youth, Hershey Medical Center at Pennsylvania State University.

He was a practicing physician in Phoenix, Arizona and Goshen, New York prior to joining the Hospital. In addition to **Ellenville Regional Hospital**, he maintains affiliations with Arden Hill Hospital, Horton Medical

Center, and St. Anthony Community Hospital.

Dr. Flynn will provide services in the areas of general orthopedic care of fractures, joint disease, arthritis, and sports medicine. He will work closely with the hospital's Pain Management, Physical Therapy, and Rehabilitative Medicine Departments, and will be the orthopedic surgeon on-call for the hospital's emergency department.

"I'm pleased to be a member of the **Ellenville Regional Hospital** medical staff and look forward to working closely with the hospital staff and community physicians to bring more quality services to this community," stated Dr. Flynn.

"The collaboration of orthopedic medicine with other hospital departments, such as Physical Therapy and Pain Management, will create a unique service, the likes of which this community has not had in the past," says CEO Mazzarella.
