

Dale Craft has been office manager for **Craft Chiropractic** for over thirty years. She too has been active in, and supportive of, community activities and organizations. Mrs. Craft is presently president of the *Shawangunk Garden Club* and has spearheaded the planting of 500 Kousa dogwood trees in our town. She is also a member of the *Noonday Club* and has served as president of the Auxiliary to the New York State Chiropractic Association.

Dr. Mark Craft has been a little league coach, volunteered at the *Ellenville Central School*, the current president of the **Ellenville-Wawarsing Chamber of Commerce**, chairman of the *Wawarsing Bicentennial Committee* and holds membership in the *Ellenville Noonday Club* and the *Wawarsing Sportsman's Club*. He also serves as an examiner for the National Board of Chiropractic.

Dr. Allise Marter has coached and served as secretary for the *Ed Jacob's Soccer League*, currently volunteers at the *Ellenville Central School*, as well as holding membership in several community organizations.

The newest member of *Craft Chiropractic* is Dr. Joseph Grable. He serves as a board member of the *Community Circle of Friends* and volunteers his time for staff training at the *Ellenville Regional Hospital*.

The staff at *Craft Chiropractic* are professionals working and living within our community. This tradition of being a part of the community in which you live and work will never change at **Craft Chiropractic**.

Congratulations to **Craft Chiropractic** for fifty years of being a part of our community. 

"Besides traditional chiropractic methods," noted Dr. Grable, "we utilize the most current technology to provide care to our patients. These state-of-the-art instruments, the Adjustor (left, held by Dr. Craft), and Percussor (right, held by Dr. Grable), are used to remove nerve and fascial restrictions in the body, giving the chiropractor more tools to increase patient health and well-being."
