**Yes, it's time for  
a chiropractor.**

It's not whether you win or lose. It's how well you bounce back after the game. Doctors of chiropractic do more than focus on where you hurt. Their specialty is finding out why you hurt, and applying hands-on effective care that will get to the root of the problem and correct it. Maybe that's why chiropractic care will help over 30 million people get back in the game this year. Yes, it's time for a chiropractor.
