## Stamping & Scrapbooking Workshop

by Doreen Stedner

Try the latest Craze that's taking the nation by storm. **Stedner Printing, 135 Canal Street** in Ellenville, is sponsoring a Stampin' -N- Scrapbookin' Workshop Open House on **Saturday, February 5<sup>th</sup>** from **9 AM to 1 PM**. Local resident Tammy Avery will be the teacher/ demonstrator, and a fun time is guaranteed!

Stamping became popular in the 90s and has evolved to almost fine-art status. While paper started out as the "canvas" of choice, now anything can be stamped... glass, fabric, and even walls. Many think it's only for the talented, but take a piece of paper and begin cutting, stamping, trimming, coloring, layering, add a few embellishments, and you'll have created a work of art in no time!

Scrapbooking can include many of the same techniques mentioned above, but again, the sky's the limit. Transform the piles of photos you have laying around into something to show everyone. While learning about layout and design you will also learn proper storage techniques and how to preserve your photos best.

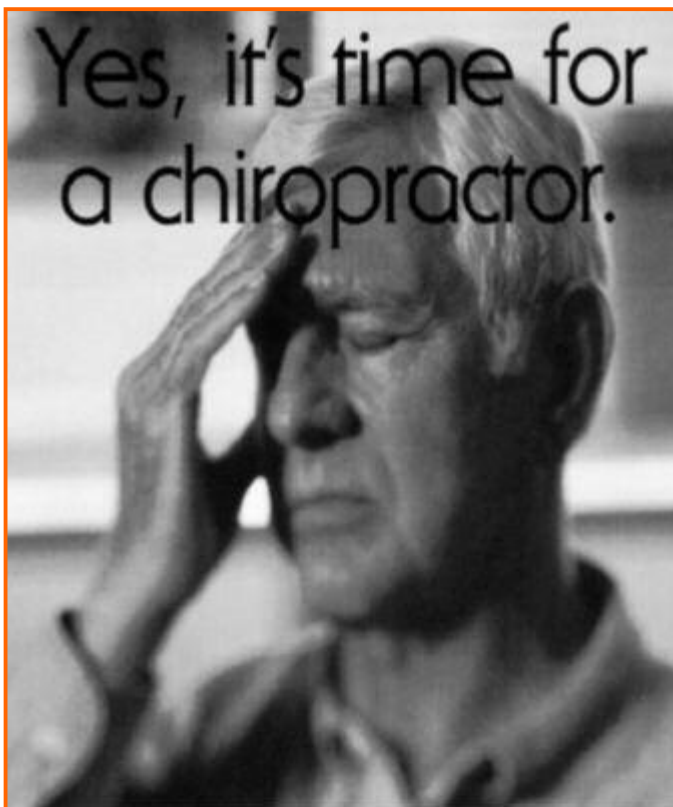

Join us for a morning of fun and go home with a hand-made Valentine for that special someone in your life. For more information, please call Doreen or Julie at **647-6493** between 8:30 AM and 5:00 PM Monday - Friday. There is no charge for this event and registration is not required. Since it's an Open House, please feel free to come and go as your schedule permits. ☆

Stress. It's not just in your head. In fact, stress can—and often does—affect your entire nervous system. Your doctor of chiropractic can offer you health care that focuses on the core of your nervous system and its relationship to your spinal column. Care that gets to the source of stress-related symptoms. And, most important, care that strengthens and rejuvenates your body's natural ability to ward off the debilitating effects of stress. So use your head. Yes, it's time for a chiropractor.

Call for your appointment today.
