Support the ERH & EFAaRS

by Jeffrey Kaplan, Mayor, Ellenville

Over the last weekend in February, I learned first hand why supporting the *Ellenville First Aid and Rescue Squad* and *Ellenville Regional Hospital* is far more than a financial debate for the residents of the Ellenville area.

On Friday evening, my mother required immediate medical attention and, within minutes of a call to 911, an ambulance was at the door to my parent's house and, following a short family debate as to whether she should be transported to Horton Hospital or *Ellenville Regional Hospital*, she was transported to *Ellenville Regional Hospital*.

Far from a backwards rural hospital or a facility working with a weekend skeleton crew, my mother received care and attention including examination from the emergency room doctor, an internist, a cardiologist, and a neurologist. The nature of the examination and the tests my mother received would rival any urban hospital during regular weekday business hours. The very fact that this all took place over a weekend makes it all the more incredible.

I urge all residents of the Village of Ellenville, the Town of Wawarsing, and surrounding areas to support the *Ellenville Regional Hospital* and *Ellenville First Aid and Rescue Squad* so it will be there for you and your loved ones in times of crisis when immediate medical attention is required.
